### Strategic Planning

GSBA offers a comprehensive planning  
process that begins with a communi-  
ty engagement component. District  
stakeholders have the opportunity to  
provide input before the plan is devel-  
oped. The process then moves to the  
planning team stage, where a diverse  
group of school system and commu-  
nity leaders review data and develop  
the core areas of the plan: vision,  
mission, beliefs and strategic goals.  
Action teams then work to develop  
performance objectives and measures.  
The plan is also aligned to school level  
improvement plans. The end product  
provides a carefully thought out plan  
that has the input of hundreds of  
stakeholders and is aligned from the  
central office to the local schools.
