

GEORGIA SCHOOL BOARDS ASSOCIATION

BEACON AWARD

Nomination and Signature Form

School System: _____

- This award recognizes print and electronic media representatives or organizations whose coverage over time (*rather than a one-time project or article*) has created understanding of public education issues by informing the general public about programs, policies and/or issues affecting the public schools, students, and/or communities. Examples should be included that demonstrate how the media representative or organization has helped to create understanding of public education issues through general reporting, regular print and online sections or broadcast segments. Examples include: fair, non-biased reporting of education; a regular section of a print or online news source devoted to public education issues (aside from reports on athletics); and regular television or radio segments devoted to public education. **Up to five awards may be given in each category: print and electronic.** The GSBA Awards Committee will consider these awards separately. **Please note that the board of education must officially approve the nomination for a Beacon Award (print and/or electronic).** **Individuals and organizations are not eligible to win the award in consecutive years.**

Print Media (Newspaper, Magazine, etc.)

Electronic Media (Television, Radio, Website, etc.)
